

BASTIEN LADRA

DEVSECOPS & CYBERSECURITY SPECIALIST

ladra.bastien@gmail.com | LinkedIn | GitHub | France | Remote / on-site

Cybersecurity specialist focused on DevSecOps and holder of the French RNCP professional title Expert in Information Technologies - bac+5 level. Professional experience at NEHS Digital, GSOI and ASTEK, complemented in 2026 by delivery pipelines with quality gates, SBOMs, provenance, signatures, DAST and secure IaC.

2026 TECHNICAL EVIDENCE

7.2/10 OpenSSF Scorecard from 3.9/10	3 professional roles NEHS · GSOI · ASTEK	7 security workflows Secure API DevSecOps	300 h POEI DevSecOps Aug - Oct 2026
---	---	--	--

SELECTED PROJECTS

Secure Software Supply Chain Lab - LUISE / POEI | 2026

- Multi-job CI with Gitleaks, Ruff, Bandit, Pytest, pip-audit, CodeQL and a blocking quality gate before build.
- CycloneDX SBOM, provenance, Cosign keyless OCI signing, GHCR and verification before deployment.
- OpenSSF Scorecard improved from 3.9 to 7.2/10; release v0.1.18 showed 0 observed vulnerabilities in Ortelius after the pip lock fix.

Secure API DevSecOps - Public project | 2026

- End-to-end secured FastAPI delivery path covering SAST, dependencies, containers, OWASP ZAP DAST, IaC and Cloud Run.
- SBOMs, attestations, hash-locked dependencies, digest pinning and controlled negative tests for CI safeguards.

PROFESSIONAL EXPERIENCE

2023 - 2024	DevSecOps - NEHS / DRIM-M - Bitbucket → GitLab migration, CI/CD workflows, incidents and GitLab optimization.
2022 - 2023	Information Systems Security Operations - GSOI - Security Command Center, GCP, Cloud Armor, firewall, bastion, PKI, Terraform / Ansible.
2022	Watcher SecOps - ASTEK - Vulnerability monitoring platform, Vuls/Trivy, Python/API/UI, Docker/AWS.

ACADEMIC PROJECT · EPITECH CURRICULUM

2019 - 2022	Project Lead / Developer - Epitech EIP - Curriculum project: eight-person team, web/mobile development, DevOps operations and containerization.
--------------------	--

SKILLS & CREDENTIALS

DevSecOps: GitHub Actions, GitLab CI/CD, CodeQL, Gitleaks, Bandit, pip-audit, OWASP ZAP, Dependabot. **Supply chain:** CycloneDX, Cosign, provenance, attestations, GHCR, OpenSSF Scorecard. **Cloud/IaC:** GCP, AWS, Terraform, Ansible, Cloud Armor, IAM, PKI/TLS. **Development:** Python, Shell, C/C++, JavaScript, FastAPI, Flask, React.

Qualification: Epitech - French RNCP title Expert in Information Technologies, bac+5 level (2022) | POEI DevSecOps Consultant LUISE (2026, 300 h) | EBIOS RM intro (2025) | Google Cybersecurity (2023) | ANSSI SecNumacademie.
